TRUCKMEN ARE BROTHERLY

The Man with an Empty Wagon
Makes Way for Another
with a Load.

Truckmen are pretty sure to be
brotherly, when a brotherly hand is
needed. Here was such a hand extend-
ed in a somewhat unusual way, says
the New York Sun.

halted in front of a store in a down-
town street was a truck drawn up along-
side the curb, while at same time there
was backing up to the curb in front of
a store on the other side directly op-
posite a truckman with a big, empty
truck to take on a load, and coming at
the same time, up the street, which has
a heavy grade at this point, was a man
with a three-horse team hauling a big
sack with a heavy load of some sort
of manufactured iron goods.

With the truck against the curb as
it was on one side, and the truck of the
man backing up on the other, project-
ing out as it would be with the truck
in that position, there wouldn't be
room for the team coming to get by;
and the man coming up didn't want to
halt his team, a good one, but with
about all the oad it could handle on
that grade. And so the man with the
three-horse team, as he keeps coming
right along, slings out to the man
backing up, who had already got his
truck all but into position:

"Say, Bill!"

And Bill, without any hesitation,
slew his truck out of position again
and around diagonally lengthwise of
the curb on his side, so giving the man
with the heavy load coming up the
grade room to pass.

Which he did without a word of
thanks to the man who had thus made
way for him. But no thanks were nec-
essary; for the man backing up, who
now proceeded once more to put his
truck into position, knew that if their
situations had been reversed the other
driver would as promptly have made
way for him.

The Healthy Japanese.

English surgeons who have returned
from learning of the Japanese soldiers
in the war are saying the most about the
fact that the Japanese recover quickly
from the effects of wounds, because they
are taught early and late to keep their
bodies clean, inside as well as outside.
One of the doctors lays all the stress on
the internal cleanliness in these words:
"The Japanese soldier has been taught
how to treat his inside, and consequent-
ly his inside is now treating him with
equal consideration. Therefore, his flesh
wounds heal very quickly."—Worcester

DOES A SAFE GENERAL BANKING BUSINESS

MISSOURI STATE LIFE INSURANCE COMPANY

Home Office, St. Louis, Mo.

DID YOU KNOW:

FASTEST GROWING That for the past two years the Missouri State Life made the largest net increase in its insurance account of any company in the world.

HIGHEST INTEREST EARNING That its interest earnings on investments are greater than those of any other company, being 6.98 per cent net.

LOWEST DEATH RATE That its death rate is only about 65 per cent of the death rate according to the requirements of the state standard.

YOUNG COMPANIES BEST That the oldest companies are not necessarily the safest; you had as well believe that the oldest bank is the safest.

ALWAYS AGGRESSIVE That the Missouri State Life is now operating in twenty-two states, and is constantly extending its fields of operations and is not only the best company for the policy holder but for the agent as well.

If you are a prospective policy holder or desire agency work, call on or write,
